Whatever It Takes for Youth, Families and Communities.
WHO WE ARE
Boys & Girls Clubs of Greater Tarrant County is committed to being the premier youth development program in our community, a low-cost or free resource available to all, providing a safe and welcoming environment where children and teens are respected and valued. Through afterschool, summer, prevention and intervention programs that meet the highest standards of quality, kids learn the academic, lifestyle, and citizenship skills they need now and that will result in positive outcomes for the rest of their lives.

OUR MISSION
To enable all young people, especially those who need us most, to reach their full potential as productive, caring, responsible citizens.

OUR VISION
To provide a world-class Club Experience that ensures success is within reach of every young person who enters our doors, with all members on track to graduate from high school with a plan for the future, demonstrating good character and citizenship, and living a healthy lifestyle.

OUR CORE VALUES
Our values define how we as an organization think and work strategically with a laser focus on the wellbeing and success of the kids we have the privilege of serving. We have the COURAGE to make difficult decisions and protect all we serve. We CHALLENGE ourselves and each other to imagine all possibilities. We think and act BOLDLY to purposefully grow our mission.

CLUB SAFETY
The safety of the kids we serve is our organization’s number one priority. The organization has been committed to taking every safety precaution to protect our families and staff during this pandemic.

BY THE NUMBERS
36,349 Youth Served
260,000+ Meals Served
26 Branch & School Sites Open for In-Person Services
Through every challenge in 2020, Boys & Girls Clubs of Greater Tarrant County was there to support and guide our kids and families, providing them with every resource possible to survive the pandemic.

We remained a pillar of consistency in the lives of the youth that we promised to serve, by doing whatever it takes. With the closure of schools for our members and the increasing number of layoffs for our parents, our service model quickly needed to adapt to the new needs of our community. Since the start of the pandemic, Boys & Girls Clubs has served the community as a drive-thru food bank, mobile meal delivery service, a safe and fun summer camp that allowed parents to keep working, a virtual learning center that provided kids with a place to go during the school day, and we launched our Agenda for Youth advocacy platform to help elevate the voices of our teens.

Every single day, we showed up live and in-person to help kids. We know that for many kids and teens, the Club is the most stable place in their lives. As our kids faced significant changes in how they went to school, financial hardships as their parents lost work, and have had to deal with the trauma of a global pandemic, it was more important than ever that the doors to the Club remained open and their favorite staff members remained in their lives.

I want to personally thank our staff who were on the front lines - with a mask on and a smile underneath - serving our kids and families with courage and compassion.

I also want to thank our community members who helped us serve kids in big and small ways - handing out warm meals, giving donations, making masks for our staff - together, we made a difference in the lives of kids and families in our community.

Thank you for always standing with us...even if it’s six feet apart.

Daphne Barlow Stigliano, BGCGTC CEO & President
The Youth of the Year program is a national initiative that acknowledges the remarkable lives of young people who have overcome challenges and distinguished themselves with outstanding contributions to their communities and their Club. Every year, Boys & Girls Clubs of Greater Tarrant County chooses one outstanding teen to serve as our Youth of the Year. At our 2020 Youth of the Year Gala, we heard incredible stories from our top four finalists, culminating in the top place award going to our Don Kromer Branch member, Torion. Torion’s work ethic and passion distinguished her as a leader at the Club and in the community. During her 12 years as a member, she has overcome many obstacles to become a great leader. She affirms that the difference between herself and others is the opportunities she has been afforded as a Club member. She hopes to be a beacon of light for those who aren’t guided by mentors and the impact of after-school programs. She has taken her Club experiences and applied them to her life outside the Club. Her determination continues as she works to pursue her dream to become an orthopedic surgeon.

Our 2020 Youth of the Year Gala also featured keynote speaker, Lucille O’Neal, mother to Club alumni and basketball legend Shaquille O’Neal, who spoke about her time as a Club member herself and how the Boys & Girls Clubs became a place where she trusted her children to go every day.

85% OF OUR CLUB TEENS VOLUNTEER IN THEIR SCHOOL, COMMUNITY, AND/OR NEIGHBORHOOD

96% OF OUR CLUB KIDS REPORTED DOING THINGS TO BETTER THEIR COMMUNITY

"The one thing that matters most to me, is investing in youth by raising awareness of places like the Boys & Girls Clubs. Just like the Club encouraged me, cared for me, and nurtured me, that's what every child should have."

Torion L.
2020 Youth of the Year
GUILT-RIDDEN, SELF-DOUBT, AND TRAUMATIZED as a result of my parent's divorce, Tori represented a person who was very shy and timid, but when I look at the person I've grown to be, I can confidently say that Tori is a strong-minded and courageous young woman. I've learned that it is okay to think outside of the box, be brave, and fully face new obstacles with my head held high. COMPLETE CONFIDENCE, OPTIMISM, and A FEARLESS ATTITUDE is the TORION you see standing before you today. For this, I'm truly grateful and appreciative of the Boys & Girls Club of Greater Tarrant County.

My journey with the Club started over 12 years ago, I was only 6 years old. Like many, I came from a single-parent household. The initial reason for me attending the Club was because my mom needed a safe place for my brothers and me to attend after school, but little did any of us know, we would absolutely fall in love, gain boundless relationships, and receive a second home.

Though my Club offers many different programs, the arts have by far been some of my absolute favorites. At the age of twelve, I started playing around with songwriting and poetry. I had always been a singer, but I never really took it seriously until I shared my passion with the staff at the Club.

Franklin D Roosevelt once said, "We cannot always build the future for the youth, but we can build our youth for the future." The one thing that matters most to me, is investing in youth by raising awareness of places like the Boys & Girls Clubs. Just like the Club encouraged me, cared for me, and nurtured me, that's what every child should have. Before the Club came into my life, my brothers and I didn't have the perfect childhood. We may not have had everything we wanted, but we were surely thankful for what we did have. I want youth like me, to flourish and become great leaders due to the time and patience we invest into them.

I am inspired by a poem by Marianne Williamson that states, "Our deepest fear is that we are powerful beyond measure. It is our light, not our darkness that most frightens us. We ask ourselves, 'Who am I to be brilliant, gorgeous, talented, fabulous?' Actually, who are you not to be? You are a child of God. Your playing small does not serve the world. There is nothing enlightened about shrinking so that other people won't feel insecure around you. We are all meant to shine, as children do." The Club has given me the utmost inspiration to not only shoot for the moon but to exceed each and every expectation set by myself and others. With that, I will be a singing and songwriting orthopedic surgeon. I will continue and lead the path to greatness and success. I will extinguish the fears of self-doubt in others. I will build confidence in the younger generation just as the Boys & Girls Clubs has built in me.

TORION L.

BOYS & GIRLS CLUBS OF GREATER TARRANT COUNTY 2020 YOUTH OF THE YEAR
ENSURING EVERY CHILD HAS A MEAL

With the issuing of the Tarrant County “Stay at Home Order” and the indefinite closure of area school districts, we adapted and responded to the emerging needs of the youth and families we serve. Starting on March 24, 2020, we provided meal services through curbside, mobile, and food bank distributions. We turned our parking lots into drive-thru food banks where families could come to safely receive warm meals. Our buses, which were used for getting kids to and from the Club, were turned into food trucks, taking meals to the front doors of families when needed.

The prepared meals were supplied through the USDA feeding program, Tarrant Area and Metroplex Food Banks, and partnerships with corporations and restaurants. BGCGTC’s food distribution impact extends beyond membership. In fact, over time only 13% of those served meals were Club members before the crisis began proving that the need for food increased steadily.

63,663 MEALS DELIVERED VIA BGCGTC BUSES
200,000 CURBSIDE MEALS SERVED
FROM MARCH - DECEMBER 2020

Handing out free meals for kids these past couple of months has had a huge impact on the community. Each day we serve hundreds of families who are in need. We have been able to connect people in the community to the resources they can’t live without.

Club Staff
March 27, 2020: An Unexpected Gift

Parents, especially mothers, have been so grateful for dinner this week when they’ve pulled up to the Boys & Girls Clubs. It’s one less worry. One less stress in a day full of crushing pressure about what’s ahead.

Sometimes a thank you means even more because it’s completely unexpected.

I’ve worked at Boys & Girls Clubs for many years, and one of the greatest joys is seeing our young members grow up to become adults. Unlike schools, they stay with us as they pass from elementary and move into middle and then high school. It’s not unusual that they come back as adults to share retrospectively how the Club shaped them as people. Yesterday a mother drove in while we were serving meals curbside. She wanted to share her gratitude for how the Club has helped her. And, now that she could, she handed us an envelope containing a check with three zeros to help us “take care of our next generation”.

We’ve all had moments lately that have stopped us in our tracks. This was one for me. We all have the capacity to care and to give. What we give and when we give it may come at different times for us all. Let’s decide to be there for each other always.

Daphne Barlow Stigliano
CEO & President, Boys & Girls Clubs of Greater Tarrant County

SERVICE HIGHLIGHT: MEAL DELIVERY

In 2019, Boys & Girls Clubs of Greater Tarrant County fed a meal and a snack to an average of 2,522 youth every day, proving food insecurity was an existing community need prior to the COVID-19 crisis. With this precedent set, it isn’t surprising that members and the community at large looked to the Club specifically for feeding support at the onset of COVID-19 in March.

When the pandemic started, we utilized our buses to deliver food to neighbors experiencing extreme hardship due to job loss, illness, and other repercussions from the pandemic.

Our buses became a representation of overcoming obstacles, conquering challenges, and doing whatever it takes to help kids and families during good times and bad.
Our staff diligently ensured that ongoing support continued to kids and teens when school was closed and the stay-at-home order remained in place. Our Youth Development Specialists crafted virtual support resources to keep kids’ minds and bodies active. Using distance technology, Club members were able to access mobile educational resources as well as their favorite Club programs anytime. In March, we had our Virtual Club Programming go live on our BGCGTC YouTube Channel. Just like members would rotate to and from different programs at the Club, our members enjoyed seeing their favorite Club staff and programs online. We heavily leveraged bgcgtc.org and our BGCGTC social media channels to disseminate resources to the community. Using technology, program staff connected appropriately to provide case management, instruction, and key emotional and mental resources.

Our Prevention Programs provided daily emotional and mental health resources for kids and families, daily healthy mind and body activity videos, a weekly podcast series, and emotional support and tips for parents. Our Pre-college Programs provided digital workshops and case management for students and families, virtual ‘Parent Night’ for information on college enrollment and financial aid, and online test prep for SAT/ACT/TSI/STAAR. Our Comin’ Up Gang Intervention Program provided online links related to health, motivation, leadership, and jobs, and provided virtual case management to members. Our Music & Youth Program provided virtual instrument and vocal music classes, virtual music production classes, and virtual music performances.

**STAYING CONNECTED - VIRTUALLY**

Club Parent
April 15, 2020: Impact

Impact
verb
ˈimˌpakt/
have a strong effect on someone or something.

It has been nearly one month since our Club doors closed and we were forced to rethink how we would reach kids. One month since the blue doors of opportunity have been opened wide welcoming kids, one month since our buses have been in motion, one month since our program staff has been able to sit with their members, in person, to provide valuable counsel, tutoring, and love.

The definition of impact: come into forcible contact with another object; have a strong effect on someone or something. Many times in the last month, it seemed as though there would be barriers to fulfilling our mission. However, our team here at the Club has met those barriers with tenacity and grit - with forcible contact. We have found creative ways to meet kids where they are and provide them with the support they desperately need. I am incredibly proud of our team’s flexibility and drive. Together we have launched robust virtual programming, served more than 12,000 meals in a short time, and found ways to still provide case management to our most vulnerable members. Even when the community at large is in crisis our team has been a representation of consistency to our members every day - this is impact.

Daphne Barlow Stigliano
CEO & President, Boys & Girls Clubs of Greater Tarrant County

VIRTUAL SUPPORT SERVICES

SERVICE HIGHLIGHT: SOCIAL EMOTIONAL SUPPORT

Throughout the year, we addressed the social and emotional needs of our kids through our prevention and counseling programs. During the 2020 spring and summer, our prevention department pivoted to a virtual platform for tele-counseling and produced videos to assist youth in making positive life choices and decisions regarding alcohol, tobacco, drug abuse and more.

Our Straight Talk program provided individualized and group counseling to our members for no cost. Throughout the pandemic, we have focused on teaching kids how to cope with trauma, manage stress, develop communication skills, and intervene during times of crisis.

We also provided resources on meal distributions, mental health hotlines, educational videos, and support for parents. Our Prevention specialists created a podcast to reach members at home.

The podcast focused on topics such as mental health, social media, and how to cope with grief and other emotions that many kids and teens experienced during the pandemic.
As the school year began, we continued to provide support to kids in the ways they needed it most. To help support our Club members navigate learning remotely, we opened 5 locations across Fort Worth and Arlington as Boys & Girls Clubs Back2Basics (B2B) school day learning centers. The B2B Learning Centers operated for the first eight weeks of the school year, Monday through Friday, 7:30 a.m. - 6:00 p.m. until October 9, 2020, for students grades K-12. 

Afterschool programming resumed in the fall at 11 branch and school site locations. Traditional programming in the areas of academic success, college and career readiness, healthy lifestyles, social-emotional wellness, and character and leadership commenced.

Our staff also went back in operation within the school districts. Our Educational Talent Search, Upward Bound, and Prevention programming teams offered services within schools which included teaching curriculum, providing college counseling, and offering career advice.

- **75%** OF OUR CLUB KIDS FEEL MORE SAFE HANGING AT THE CLUB THAN SOMEWHERE ELSE
- **85%** OF OUR CLUB KIDS EXPECT TO COMPLETE POST SECONDARY EDUCATION  
  (4 YEAR, JUNIOR OR TRADE EDUCATION)

"Boys & Girls Clubs impacted my life by giving me somewhere to enjoy learning and not get bored. I was also able to gain more friends here."

Club Kid
The fear and uncertainty our community is feeling because of COVID-19 is a feeling many kids experience every single day. That’s why the Boys & Girls Clubs exist. The Club provides a safe, familiar place - a sanctuary for kids, especially during challenging and changing times in a child’s life.

At the start of each school year, a child advances into the next grade with new teachers, new classmates and in some circumstances, an entirely new school. However, in the midst of all of this change, the Club is a constant. When a child steps off the BGCGTC bus and opens our Club doors they can trust in familiar Club staff, friends and programs. We provide not only a physical space that keeps children safe, we provide an atmosphere of inclusion and comfort for children to become their best selves.

This year in particular will uproot every child out of their comfort zone. Kids are preparing for an educational experience that no one has faced before. Access to care that supplements learning loss is essential so that families can keep working as they navigate the tremendous challenges from COVID-19.

To help support our Club members navigate this school year, we are opening up locations as Boys & Girls Clubs Back2Basics(B2B) school day learning centers. Families need trusted places and relationships now more than ever. We have been the place that families come to because they trust us. And that remains unchanged.

Daphne Barlow Stigliano
CEO & President, Boys & Girls Clubs of Greater Tarrant County

Throughout the year, our two pre-college programs, Educational Talent Search (ETS) and Upward Bound (UB), continued to ensure our members were on the path to complete their high school education and prepared for post-secondary education.

Our intensive pre-college services target low-income and potential first-generation college students, resulting in successful strategies for entering and completing post-secondary education. In 2020, our program specialist supported teens through:

- Virtual and in-person programming, case management, and academic support supplements
- Tutoring services
- Financial aid and FASFA resources
- Virtual college-tour experiences
For nearly 100 years it has been our purpose to nurture and protect kids. Ensuring child safety is fundamental to the mission of Boys & Girls Clubs. When issues arise that infringe on the well-being of youth, we will be a voice for those who cannot speak and advocate for better solutions. We have made a commitment to listen, support, and act to create a just future for all children. In order to fulfill this promise, in the fall of 2020, we launched our inaugural advocacy program, Agenda for Youth, geared towards solving the critical issues impacting our youth.

Through the Agenda for Youth public policy platform, we are elevating policies at the local, state and federal levels that prioritize out-of-school time; safer childhoods; health and wellness; education, leadership, and workforce readiness; and equal opportunities for all youth. Annually, our Agenda for Youth will adapt as the community or political landscape may shift in such a way that it requires an immediate response or action from the organization to ensure that the organization is consistently addressing the most important issues that are most consequential to our children.

In 2020, we hosted our Courageous Conversations for Kids event, which gave our members a public forum to discuss the critical issues that are impacting their futures. We also convened a Government Relations and Advocacy Committee - a group of community leaders working to help advance the Club's mission by setting priorities for advocacy work and meeting with elected officials on our behalf. To close the year, three of our Club members were featured on WFAA's Good Morning Texas program to speak about what kids need to thrive in today's society.

“
For our Agenda for Youth we talked to the staff, board, and our kids and really wanted to put an emphasis that centers on youth voice. We asked them what their hopes for the future were, and how we could help them get there.

Shon Dorsey, BCGTCT SVP of Operations
June 16, 2020: We Listen. We Support. We Act.

It is our organization’s mission to enable all young people, especially those who need us most, to reach their full potential. In order to do that, we must amplify the voices of our kids and teens to ensure that they can reach their goals and achieve their dreams. Here are a few steps the organization is taking to amplify youth voices.

- **We Listen**: We are hosting teen forums so that the voices of our members are heard. We will work with existing and new partners to widen the circle of dialogue so that our steps are rooted in collective change.

- **We Support**: We are building our platform for the youth agenda locally, regionally, and nationally. We will ensure youth have direct lines to community decision-makers and the support needed to amplify their voice.

- **We Act**: We will take action to affect positive change so that all young people reach their full potential.

Our work at Boys & Girls Clubs among young people is rooted in the elimination of racism and bias, provision of equity and opportunity, and elevation of dignity for all. I encourage you to join us.

This work is clearly critically important and we must do better for our children. Thank you for supporting the safety and dignity of all people and for doing what’s best for our community’s most vulnerable people.

**Daphne Barlow Stigliano**  
CEO & President, Boys & Girls Clubs of Greater Tarrant County

**SERVICE HIGHLIGHT: TEENS IN ACTION FOR CHANGE TODAY**

In the summer of 2020, we convened a group of passionate Club teens to form an advocacy network called, Teens in Action for Change Today (T.A.C.T.).

Throughout the year, the teens engaged in actions to have their voices heard and help others amplify their voices.

Our T.A.C.T. helped us lead the national Boys & Girls Clubs voter registration initiative throughout the fall. During the week of September 21-25, T.A.C.T. encouraged Club members and staff across America to engage in civic activities such as taking the pledge to vote on www.powerthepolls.org, signing up to staff their local polling site, creating youth-led social media voter campaigns, and facilitating voter education activities for youth, to name a few. The week concluded with a Teen Voter Education Experience on September 25, at our Main Branch in Arlington.

All efforts were nonpartisan and abided by the legal requirements for participation and voting.
It is apparent now more than ever that our families and youth rely on the Club for services and support beyond just being a safe place for kids. We are committed to aligning our services and doing whatever we can to effect positive, impactful change in the lives of the youth and families in our community.

The COVID-19 pandemic revealed that the needs of children and families are greater than ever, and the ability to access basic needs services is critical for these families to thrive. Throughout 2021, Boys & Girls Clubs will play a bigger role in helping families to receive essential services that support improving childrens’ performance in the classroom and their overall health and wellbeing. At the start of 2021, we launched our Expanded Basic Needs program, which is built on three components of 1) Basic Needs Assistance, 2) Case Managed Services, and 3) Mobile and Virtual Programming.

Because of the pandemic, young people were removed from their typical academic environment, missed out on critical social-emotional connections, and may have experienced trauma. Throughout 2021, we will also heavily focus on getting kids back on track, socially, emotionally, and academically. The road to recovery will not be easy, especially for students who are experiencing economic hardship and do not have access to additional academic resources or support. That is where the Boys & Girls Clubs steps in. We will continue to open our doors to thousands of families and students each day providing a safe place where they can thrive. We seek to reach more kids in need during out-of-school time and grow participation in our life-changing, outcome-driven programs for an even greater impact on kids and our community. Every parent should have access to an affordable, quality afterschool program that will keep their child safe, supervised, and learning.

As we look to the future, we plan to continue doing whatever it takes for the kids in our community. With an ever-increasing youth population in Tarrant County, the needs of kids and teens are already going unmet in our communities. To meet these rising demands and growing numbers, Boys & Girls Clubs of Greater Tarrant County is setting out on an ambitious and inspiring plan to sustainably serve 35,000 kids and teens annually by the year 2026, our 100 year birthday.
CONSOLIDATED STATEMENT OF ACTIVITIES

REVENUE & OTHER SUPPORT

Contributions $3,867,362
Government Grants and Contracts $4,304,654
Special Events $480,706
Program Service Fees $108,109
Membership Dues $62,300
Other $91,431

Total Revenue & Other Support $10,046,918

Total contributions equaled $3.8 million, as compared to $3.4 million in 2019, due to increased giving by donors due to the impact of the pandemic on the Organization.

EXPENSES

Program Services $9,110,543
Management and General $1,196,451
Fundraising $584,197

Total Expenses $10,891,191

Expenses decreased 20% overall from prior year due to the impacts of the COVID-19 pandemic.

SUMMARY

Total Revenues $10,046,918
Total Expenses $10,891,191
Investment and Other Income $1,275,480
Change in Net Assets $431,207

The 2020 consolidated financial statements of Boys & Girls Clubs of Greater Tarrant County, Inc. and Affiliate (the Organization), underwent a successful and timely audit. No single audit internal control or compliance findings were noted.

The Organization proactively adjusted programming and re-budgeted operations in the fiscal year 2020 to accommodate the known impacts of COVID-19, and continues to monitor programming, operations, and budgets in the fiscal year 2021 to ensure the appropriateness of balances.
