2021 and all of its challenges forced communities to adapt to new realities. The Boys & Girls Club continued to be here for kids and families to meet those challenges. There’s a saying that necessity drives innovation; so even as the pandemic continued to impact how youth were able to participate all last year, BGCGTC innovated and served over 31,000 young people.

In February 2021, just in time for “Snowvid”, BGCGTC also raised its hand and provided care to those in our communities that needed it the most. Panther Branch was transformed into a centralized hub where individuals and families could receive basic needs and parental support services to access state and federal programs. The Basic Needs Center housed donated clothing and personal items, free to anyone in need.

In May of 2021, the Mobile Clubhouse officially hit the road. The result of out-of-the-box thinking by dedicated BGCGTC employees who were determined to maintain a level of normalcy for youth facing disproportionately difficult circumstances, the Mobile Clubhouse met our youth where they were. Using a fleet of six vehicles, it quickly became a full-fledged program, serving as a space where youth learn, feel comfort and know that they are welcomed just as they are. The Mobile Clubhouse experience continues to provide programming and services to the youth in Tarrant County and beyond.

Last year changed all of us, just as it changed the Club. Today, the work continues to provide a sense of normal to the youth whose lives have been forever changed by something none of us could control. Boys & Girls Clubs remain steadfast, and we welcome opportunities to collaborate. Together we’ve been able to accomplish much, and together we’ll accomplish much more to ensure we remain a pillar of consistency in the lives of the youth we promised to serve.

Daphne Barlow Stigliano, CEO & President
Club Overview

OUR MISSION
To enable all young people, especially those who need us most, to reach their full potential as productive, caring, responsible citizens.

OUR VISION
Provide a world-class Club Experience that ensures success is within reach of every young person who enters our doors, with all members on track to graduate from high school with a plan for the future, demonstrating good character and citizenship, and living a healthy lifestyle.

WHO WE ARE
Boys & Girls Clubs of Greater Tarrant County is committed to being the premier youth development program in our community, a low-cost or free resource available to all, providing a safe and welcoming environment where children and teens are respected and valued. Through afterschool, summer, prevention and intervention programs that meet the highest standards of quality, kids learn the academic, lifestyle, and citizenship skills they need now and that will result in positive outcomes for the rest of their lives.

From the Board of Directors and leadership to our dedicated branch directors and youth development specialists who work with our kids, this organization takes seriously and believes passionately in the truth that all kids deserve the opportunities it takes to have a bright future. It is our privilege and solemn responsibility to make this future available to as many young people as we can reach.

CORE VALUES
Our values define how we as an organization think and work strategically with a laser focus on the wellbeing and success of the kids we have the privilege of serving. We have the COURAGE to make difficult decisions and protect all we serve. We CHALLENGE ourselves and each other to imagine all possibilities. We think and act BOLDLY to purposefully grow our mission.

Expanded Basic Needs: Basic Needs Center / Food Pantry

March 2021 marked one year since the Covid crisis began. Since then countless families and communities have suffered the effects of loss of jobs, income, health care, and food insecurity. The most vulnerable communities have been disproportionately affected and the quality of life for many families has depleted.

There was an undeniable need that is not being adequately addressed in our own backyard. After assessing the needs of the community, Club Board members, and leadership determined that the Club could do more. Doing more meant opening our doors to the community to ensure accessibility to programs and services that could improve their quality of life. This meant a big change for our very first Boys & Girls Clubs site in Tarrant County!

The Boys & Girls Clubs Panther Branch is located just outside the Medical District, near the Southside at 1500 Hemphill. Panther Branch opened in January 1926 as the Panther Boy’s Club and is the second oldest club in Texas. For 95 years the Panther Branch has been a safe haven providing fun and enriching activities and programs for youth. On February 8, 2021 the Club doors opened as The Basic Needs Center.

**THE BASIC NEEDS CENTER** was purposefully designed to provide basic needs assistance and parent support services to assist families. The Basic Needs Center now serves as a hub to wraparound services provided in collaboration with other community agencies and organizations. The winter storm that left thousands of families without electricity, heat, food, water and other necessities for several days added even more strain on families who are already struggling. Club staff, volunteers, and supporters collaborated to ensure our community did not go without food. The Basic Needs Center opened to distribute fresh groceries, canned goods, water, and personal hygiene supplies to families during a critical time when they needed us the most.

**BASIC NEEDS CENTER FOOD PANTRY:** A daily food distribution center providing families with fresh groceries and dry goods to make sure children have access to nutritious meals in their home. Additionally, drive through food distribution events will continue each month as well as weekly mobile meals program for families in need of food assistance.

**PARENT SUPPORT SERVICES** provide families with direct client support to assist with accessing basic needs programs and services offered through the Texas Department of Health and Human Services. Programs such as WIC, SNAP, TANF, and Health Care. Program managers and program specialists will provide one-to-one navigation, and information and referral resources to families needing additional basic needs assistance.

**THE CLOSET** is available to families in need of clothing items, coats, and shoes. Donations from individuals and corporations, like Old Navy, help to fill the closet with gently worn and brand new clothing items that are free to families who need them.
Out-of-school Time Success

"I wanted to keep my kids home last school year but they fell so far behind with virtual learning that I had no choice but to send them to school. I had to work and they had no one to help them complete assignments or help them with homework. They weren’t getting the support they needed to be successful at home or from their teachers." - Club Parent

AFTER SCHOOL PROGRAMS

Boys & Girls Clubs of Greater Tarrant County opened its doors to families and students each day in 2021 providing a safe place where they can thrive during the critical after school hours. Our life-changing, outcome-driven after school programs provide experiences to youth that they may otherwise not have, build human and social capital, and help to close the opportunity gap. Without after school care, parents who do not have flexible work schedules are left with few or expensive childcare arrangements. Every parent should have access to an affordable, quality after school program that will keep their child safe, supervised and learning.

The Club implements evidenced based education programs that lead to better outcomes for our members. Rooted in social-emotional skills, programs in this area enable all students to be effective, engaged learners who are on track to graduate with a plan for the future. Our Clubs offer both remediation and enrichment, all while encouraging students to discover and pursue passions that connect to future opportunities. BGCGTC’s academic programs focus on supporting the whole child as they progress through the K-12 system and prepare them for college or careers after graduation.

Because of the pandemic, young people were removed from their typical academic environment, missed out on critical social-emotional connections, and may have experienced trauma. These significant experiences impact youth differently, which is why a youth-centered approach could
help young people connect, learn, and thrive as they return to school. Youth-Centered Learning is an approach in which flexible learning activities and supports are designed to respond to youth’s unique strengths, needs, and experiences. Boys & Girls Clubs of Greater Tarrant County implements evidenced based education programs that complement and reinforce what youth learn during the school day while creating experiences that invite them to fall in love with learning. Rooted in social-emotional skills, programs in this area enable all youth to be effective, engaged learners who are on track to graduate with a plan for the future. Our Clubs offer both remediation and enrichment, all while encouraging youth to discover and pursue passions that connect to future opportunities.

BGCGTC offers several education core programs that support Academic Success. Our program includes experiential learning, so that youth learn actively, through a “hands-on” and “mind-on” approach and still have fun!

Our programs are designed to empower youth to excel in school, become good citizens and lead healthy, productive lives. This school year we will provided:
• In-person youth development programs at 6 branches daily M-F
  • Social and Emotional Learning and Support
  • Academic Boosters and Support
  • College and Career Readiness
  • Healthy Lifestyles Engagement
  • Music & Youth
SUMMER PROGRAMS - OUT OF THE HOUSE AND INTO THE FUN!

This summer, more than any in the past will be especially critical for combating the “COVID slide” that so many students have experienced, and getting them back on track for academic success. Summer will be a make-or-break time for helping students make up ground academically and begin to recover socially and emotionally from the effects of the COVID-19 pandemic. At Boys & Girls Clubs of Greater Tarrant County our culture of making learning fun, while complementing and reinforcing what youth learn in school enhances young people’s strengths and promotes positive outcomes.

The Club Camp Experience is complete with hands-on learning and games, an infusion of technology, arts, and music, and keeping active and healthy. Every child receives lunch and a snack as well as access to other basic needs items. Our team of professional youth development specialists are committed to building meaningful connections with each Club member to ensure that everyone has a safe, fun, and memorable summer experience.

THE CLUB CAMP EXPERIENCE

BGCGTC’s Club Camp Experience is a hands-on, minds-on, project-based program designed for summer in the Club. It consists of week-long modules consisting of fun, themed activities for elementary, middle, and high school students. Activities encourage youth to fall in love with learning by engaging them in unique educational experiences that spark curiosity, allow them to explore their interests, and create opportunities.

During the summer Boys & Girls Club locations throughout Tarrant county offered the following services:

• In-person youth development programs at 6 branches daily M-F
  ◦ Social and Emotional Learning and Support
  ◦ Academic Boosters and Support
  ◦ Healthy Lifestyles Engagement
  ◦ Music & Youth

“I like the Boys & Girls Clubs because I have fun and enjoy being around my friends. I love the staff because they are nice!”
- Club teen
At the Club, kids:
• feel physically and emotionally safe
• receive support and recognition from caring adults who set expectations for them
• are provided opportunities to try new things
• have fun
• feel a sense of belonging at the Club

pre-college prep program at TCC Trinity River for teens, daily gang intervention program at 6 locations, daily drug and alcohol prevention curriculum programming at Clubs and partner locations
• On-site counseling by Club employed LPCs

At the Club, kids experience judgment-free and caring relationships with kids that allow them to feel empowered, have a sense of belonging, and build positive interactions. Club members attending our local program consistently demonstrate the following positive changes as measured in an independent, national survey of Boys & Girls Clubs:
• School effort increased academic confidence
• Decreased levels of aggression
• Higher levels of community service involvement
• Lower likelihood of risky behaviors including carrying a weapon or using drugs and alcohol

BGCCTC’s Club Camp Experience offers high quality academic instruction paired with fun enrichment activities that keep students engaged and make them excited about coming to the Club.
Service Highlight: Meeting the Needs of Children

The safety and wellbeing of all children and youth is our number one priority at BGCGTC. Our organizational commitment to ensuring safe spaces for kids is not only about physical safety, but also their social-emotional wellness. Having a safe place to go with adequate supervision by caring adults is a critical component of positive youth development. Beyond access and quality of instruction, students must be in a physical and emotional state that enables them to learn. This is accomplished when they feel safe, their needs are being met, and they have caring adults to support them.

The social and emotional needs of youth only grew greater and more complicated as we moved through 2021 and into 2022. With already increasing rates of suicidal ideation brought on by isolation and other social challenges related to the pandemic, the Club must increase focus and resources on this problem. That’s why our organization has identified social-emotional wellness as one of our top priorities.
BGCGC’s targeted programs such as Positive Action, Straight Talk counseling, SMART moves, and Mentoring At-Risk Youth among others, provide social-emotional and mental wellness curriculum as well as access to resources. Additionally, The Agenda for Youth aims to raise awareness of community-based social issues and policies that affect the safety and emotional well being of our kids, families, and employees served by the Club. BGCGTC continued our Courageous Conversations for Kids Series, hosting a virtual event on April 8th. Attendees heard from outstanding youth leaders and community stakeholders and had the opportunity to engage in a virtual, interactive round-table discussion about the challenges our kids continue to face around mental health, socio-emotional wellness, and safety. We believe that youth voice and perspective has the power to shape community-wide actions and champion change.
Mobile Clubhouse

Because we know that access is a huge barrier to getting the services youth and families need, BGCGTC launched the Mobile Clubhouse Experience on May 20th.

Amidst the many challenges related to the pandemic is the undeniable effect that quarantine and isolation has had on young people. Struggling youth are experiencing academic downfalls, social isolation and emotional challenges, as well as the lack of sustainable nutritious meals.

The Club has identified concentrated communities and/or apartment complexes where children aren’t accessing online learning or food. We’ve mobilized our bus fleet for mobile food distribution and sent buses full of pre-packaged food and groceries into targeted neighborhoods ensuring access to nutrition support. The Club distributed 75,415 meals through the mobile meal program in 2020.
THE MOBILE CLUBHOUSE builds on the mobile meal program by offering youth development programming and enrichment activities on site and virtually at targeted locations throughout the county. This allows youth who are unable to attend a traditional Club location an opportunity to have an optimal Club experience. Virtual and mobile programming will be provided to youth with a range of program offerings and content that promote health and wellness; and support youth in achieving academic success. Key components include:

- **Enriching programs**, pop up programs and activities facilitated by youth development staff for youth and teens
- **Virtual programs**, supplying youth with learning kits and activities for live, interactive sessions that focus on academic success and healthy lifestyles
- **Meal distribution**, providing packaged meals, snacks, and groceries
- **Basic needs**, referring families to resources and services to support their needs during the crisis
- **Counseling services**, providing social, emotional and mental support and resources for youth
- **Wifi access**, host broadband mobile hotspotting
“I aspire to bring opportunities to others because that’s what the Club has done for me. We are the generation of awareness and self care yet so many are struggling in silence or don’t know where to turn. That is why having mentors, a safe space, and awareness programs are important. As Youth of the Year, I will promote the Clubs’ programs and safe spaces for the overall development of youths.” - Imani

**YOUTH OF THE YEAR** is Boys & Girls Clubs of America’s premiere youth leadership program, honoring extraordinary young people and their achievements in leadership, service, academic excellence and dedication to living a healthy lifestyle. The National Youth of the Year title is the most prestigious honor bestowed upon a young person, representing the voice of 4.7 million Boys & Girls Club youth.

The competition starts in local Clubs who select one exceptional Club member to represent their organization in the national competition. Throughout the Youth of the Year journey, Boys & Girls Clubs recognize these outstanding young people at local, state and regional levels before providing an opportunity for six of these teens to strive for the title of National Youth of the Year.

We are thrilled to announce that Imani Mogaka has been chosen as Boys & Girls Clubs of Greater Tarrant County’s 2021 Youth of the Year!

Over the years, she has exemplified the Boys & Girls Club mission and is proof of the impact Clubs make in transforming and saving kids’ lives. Imani epitomizes everything the Youth of the
Year program strives to promote. Throughout the year, we have highlighted Imani’s incredible accomplishments and aspirations as she continues to inspire members of our community and beyond.

Imani first walked into one of our Clubs at the age of seven. The Club helped Imani break away from her shy shell and form new life lasting friendships and build relationships with mentors she views as family. At the North Branch, Imani has excelled as a SMART Leader, Keystone President, Torch Club President and mentor to younger members. Imani is not only active in the Club but also within her school. She is a standout performer in her school’s show choir and excels academically. Imani plans to pursue a degree in advertising and media communications. After being selected as Youth of the Year, she quickly went to work advocating for her peers and bringing awareness to the struggles students face during the pandemic.

Imani has been busy in her new role as Youth of the Year. As one of our teen ambassadors for this year’s Spring cohort of Courageous Conversations for Kids summit, she did an exceptional job of speaking on behalf of students about the social - emotional and mental challenges that many youth have suffered during the pandemic.

Imani has also made headlines with her story of perseverance and resilience in her personal life. Her story was featured in the Star Telegram and highlighted the very real issue of child homelessness, with which so many youth struggle. Her story was
used to raise awareness and draw attention to an issue that is easily overlooked.

Youth who participate in the program receive coaching, mentoring, and peer support throughout the competition. BGC&TC staff, volunteers, and former YOY winners facilitate character and leadership activities that ensure they are well prepared for the prestigious job. From writing, interviewing, and public speaking, the participants are equipped with skills to comfortably articulate their speeches in front of audiences of peers and Club supporters. Through the YOY program, participants are provided life-enhancing opportunities to explore, develop and apply the essential skills they need to be successful in life and work. Youth of the Year representatives are the workforce leaders, innovators and problem-solvers of tomorrow.
Vision for the Future

2021 began in the same way that 2020 ended: many in our communities greeted the new year facing situations of uncertainty and instability, unsure of what the future holds. The public health crisis that casted a shadow over the world continued to shed light on the inequities that exist in our communities. These hardships are all too familiar to the Boys & Girls Clubs of Greater Tarrant County—even during the best of times, our underserved neighbors struggle to live equitably. This is what inspires the Club to push forward and grow to meet the evolving needs of those who needed it most. Our Clubs remained open throughout 2021, providing extended services and a sense of community to youth and families that continue to face turmoil. This year also saw the first-ever Mobile Club Experience, meeting youth at churches, apartment communities – anywhere they were – when they could not come to us. If 2021 had a theme, it would be resilience and innovation. We all learned how to evolve and adapt to our new realities. Looking toward the future, the Club promises to continue to bring forward-thinking solutions to the table, consistently adapting to the challenges and needs of the youth we serve. As the youth population continues to grow in Tarrant County and beyond, BGCGTC promises to do whatever it takes to find meaningful solutions to address unmet needs. Our Mobile Club Experience is expanding by leaps and bounds, extending to areas of Tarrant County previously not served. We promise to continue to be relevant, developing high-yield programming that captures the imagination and attention of youth, especially those who need it most. As the Club nears its 100th birthday, we continue on our path to find ways to sustainably serve 35,000 youth by 2026. The need is growing, and BGCGTC promises to answer the call and champion the policies and solutions that will give you, and our youth, a future to be excited about.

Take Actions for Kids!

The world is complicated. Helping kids shouldn’t be. Together, we can! Opportunities abound for individuals, foundations, and corporations to advance our mission and become part of our vision by providing funding that changes the future for Tarrant County Youth. We are deeply grateful for the individuals, companies, and organizations who have stepped forward to support our organization. Together we have made a tremendous impact on Tarrant County kids who need us most.
We need your help. Impact the futures of local youth by investing in Boys & Girls Clubs of Greater Tarrant County in the following ways.

- Make a donation! Gifts at every level open the doors to new opportunities for our members. Make a gift today at www.bgcgtc.org
  - $25 provides an hour of tutoring for a child who is struggling academically in school.
  - $50 covers the cost of school supplies for one child.
  - $100 is transportation from school to the Club for 75 children a week.
  - $300 can help us upgrade technology for STEM programming and academic success.
- Give an in-kind donation of products, goods or services.
- Plan for the future. Make a commitment to bettering the lives of youth for generations to come by including Boys & Girls Clubs of Greater Tarrant County Foundation in a will, trust, or other estate plan.
- Give the gift of time! Plan on volunteering as an individual or with your company.

Great Futures start at Boys & Girls Clubs, but they can’t start without YOU.
